

KWAMHLANGA HOSPITAL

KwaMhlanga Hospital is situated about 65 kilometers from Pretoria in the KwaMhlanga Township. The Speech Therapy and Audiology Department started in 2005 and has since been operated by either a Community Service Therapist, or in the absence of a therapist by the Witbank Hospital Community Outreach Team. The Audiology Department has basic screening and retubing equipment, and diagnostic tests are done at Witbank Hospital on allocated days. Liaison between professions in the Allied Health building has always been excellent and patients are often treated inter-disciplinary.
