Chris Hani Baragwanath Academic Hospital Speech Therapy & Audiology Department

Presents a **3 day course on Paediatric Aural Rehabilitation**

This course will provide a theoretical framework and practical application of paediatric aural rehabilitation, including hearing aid fitting, assessment and therapy. It will focus on best practice according to international standards, but also look at application in a South African context. The course will include lectures, workshops, video clips of therapy, demonstrations and practical sessions in order for each attendee to implement skills learned.

Presenters: Dani Schlesinger
Leanne Teixeira

Date: 7th – 9th March 2012

Venue: Chris Hani Baragwanath Academic Hospital

Time: 07:30 for 08:00- 15:30

Cost: **R1200**

Early Bird payment: R1000 for those paying before the **18th January 2012**.

Professionals may wish to attend **DAY 1 only**: cost = **R400- (R350- early bird)**.

Professionals may wish to attend **DAYS 2 & 3 only**: cost = **R800- (R700- early bird)**.

ABOUT THE PRESENTERS:

Dani Schlesinger is a Chief Speech Therapist and Audiologist who has been working at Chris Hani Baragwanath Academic Hospital since 2007. Prior to this, she worked in both public and private sectors in South Africa and in England. She works as both an Audiologist and a Speech Therapist with adults and children with hearing impairments. She coordinates the Cochlear Implant Unit and the Autism Spectrum Disorders service and has a strong interest in early communication intervention. She obtained an Honours degree in Speech and Hearing Therapy in 2002 and an Honours Degree in Clinical and Community Psychology in 2009. She passed her Stage 2 SLED South African Sign Language Certificate in 2008, completed the Additional Licensing Course for Cochlear Implants in 2008 and an AVT Internship with Warren Estabrooks in 2010.

Leanne Teixeira is a Chief Paediatric Audiologist, and Paediatric Audiology Team Leader at Chris Hani Baragwanath Academic Hospital. Prior, she has worked in both the public and private sectors in South Africa, and worked for four years in paediatric Audiology Services in England. She completed her B.A. Speech Therapy and Audiology degree in 2003, and is currently completing her Audiology Masters degree. She completed the 'Effective Amplification for Infants and Children' Masters Module through the University of Manchester, United Kingdom in January 2009.
