

Chris Hani Baragwanath Academic Hospital

Chris Hani Baragwanath Hospital is the largest hospital in the world, occupying around 173 acres (0.70 km²), with approximately 3 200 beds and about 6 760 staff members.

CHBAH is situated in Diepkloof, Soweto, in the south of Johannesburg.

The Speech Therapy and Audiology Department at CHBAH comprises of 28 Speech Therapists and Audiologists, and 3 Speech Therapy assistants. We recently moved into a new outpatient building which is very exciting. We strive to provide our patients with excellent service delivery. We provide a wide variety of services, both in Audiology and in Speech Therapy. These range from super-specialised clinics like our Feeding Clinic as well as an ABR Clinic. We also have various multi-disciplinary clinics such as, Neuro-Rehab Clinic (with OT and Physiotherapy), Videofluoroscopy Clinic (with Radiology), Plastic OPD (with Plastic Surgeons) and Autism Clinic (with OT). We have full diagnostic Audiology clinics for adults and paediatrics as well as the management of patients with hearing impairment. Our cochlear implant programme provides comprehensive care to patients.

We are committed to providing a supportive environment for therapists to grow and develop. Excellent patient care continues to be our guiding mission.
