

Charlotte Maxeke Academic Hospital

CMJH is situated on the outskirts of the central Johannesburg city. We have the wonderful opportunity of overlooking most of Northern Johannesburg. We're situated \pm 70 km from Pretoria, you take the M1 South until St Andrew's off ramp (we're just a few roads up from there).

Talk Tools
A children's library
Many games and toys for therapy

Speech Therapy services includes the following: AAC , Adult and paediatric dysphagia , Videoflouroscopy, Milk scan and Modified Barium Swallow assessments, developmental assessments.

Audiology services includes the following: Diagnostic and screening audiometry & tympanometry, ABR and ASSR, screening OAE and ABR, Real ear measurements, hearing aid fittings with Hipro and laptop, ear mould modification, wax management, KMC screening, ABR testing in theatre

The case load includes adult and paediatric patients. The disorders dealt with are: CVA, ASD, Down Syndrome, TB Meningitis, CP, Hydrocephaly, High risk infants, TBI, Head and neck cancers, RVD and associated pathologies, Tinnitus retraining, Auditory Neuropathy, Language learning difficulties, Developmental delay, Cleft lip and palate, Visual impairment.
