

Discoverers Community Health Centre

Discoverers Clinic is situated in Roodepoort and falls within Region A of Johannesburg Metro Health District.

The same speech therapist that works at Zola CHC also renders services at Discoverers CHC, which also have a rehabilitation team consisting of an Occupational Therapist, Occupational Therapy Assistant, Physiotherapist and Physiotherapy Assistant. As at Zola CHC, similar patients are managed in a multidisciplinary team or in individualized therapy. Both Zola and Discoverers' CHC's have the same equipment available and outreach programmes and home visits are conducted (see opposite page for more detail).

It's an amazing experience working with this special community who are so appreciative of our services!
