

Laudium Community Health Centre

Laudium CHC is situated in the southern side of Pretoria. The nearby informal settlements like Mooiplaas and Olievenhoutbosch as well as residents from Valhalla and Centurion regions are also served. The nearest referral hospital is Kalafong Hospital, situated approximately 5 km from the Laudium Clinic.

The therapists always work within a team approach, guided by the team leader. The rehabilitation team consists of an Audiologist, Speech Therapist, Occupational Therapist & Assistant, Podiatrist, Social Worker and Physiotherapist (team leader).

The clinic offers the following services: 24 hour Emergency care, X-Rays, Dispensary, Medico –legal department, Dental, Eye-clinic, ARV & TB treatment, Maternity ward – Antenatal, Youth Services, Mental Health, School Health, Primary Health Care and Well-Baby Clinic.

Services offered by the Speech Therapist and Audiologist within the Rehab-unit include: hearing screening of walk-in clients at the clinic as well as schools and care centres in community, providing information on hearing preservation and care, cerumen management, diagnostic hearing assessments at Kalafong Hospital (as per arrangement), impression taking, hearing aid fitting, aural rehabilitation, talks in clinic and during weekly group gatherings within the community to create awareness and promote services offered, weekly visits to the Well-baby clinic in order to identify infants that will benefit from our services and promote services offered by the Rehab team, weekly visits to rural communities to offer services as needed, referrals to other health care professionals and larger hospitals, assessment and intervention services of speech related disorders in adults and children and finally assessment and intervention services of feeding and swallowing related disorders in adults and children.
