

Lenasia South CHC

Lenasia South CHC is a community health care centre which forms part of Region A clinics. It is situated in the South of Johannesburg. The Lenasia South CHC services Lenasia South, Ennerdale, Vlakfontein, Finetown and Portjie. The Clinic provides primary healthcare services to people living in the above mentioned areas. The Speech Therapy and Audiology services are based within the rehab team. The rehab team consists of Occupational Therapy, Physiotherapy, Speech therapy and Audiology. Most services to patients are provided within a multi-disciplinary approach with the OT, Physiotherapist and Speech therapist.

The speech therapy and audiology department is equipped to provide speech therapy services to children and adults which suffer from various communication difficulties, as well as, diagnostic audiology testing ; hearing aid fittings and aural rehabilitation. The audiology department has an otoscope, AC40 audiometer, tympanometer screener and a hi-pro box which has yet to be delivered. Basic toys and games are available to be used for speech therapy.
