**Dr. Richard Miles, Ph.D.
Curriculum Vitae**

Academic Training:

PhD in Biomedical and Electrical Engineering, Iowa State University 1973-1980

Medical School Faculty:

Assistant Professor and Adjunct Associate Professor, Southern Illinois University School of Medicine, Department of Surgery 1980 – present

Business Affiliation

Founder Micromedical Technologies 1986. President and CEO 1986-2002.
CEO and Chairman 2002-present.

Dr. Miles specializes in developing technology used to diagnose and treat patients with vestibular disorders. He was one of the early inventors of Computerized ENG and the Digital Light Bar in 1983. Over the past 25 years, he has designed rotational vestibular (Barany) chairs for studying the VOR, active head rotation VOR devices, caloric irrigators and Video Nystagmography (VNG). Recently he has been developing instruments for studying otolith function.

Invited Speaker

Dr. Miles has been an invited speaker at numerous dizziness and balance conferences in China, Korea, Thailand, Taiwan, Turkey, England, Egypt, Saudi Arabia and the USA.
