

Tambo Memorial Hospital

This regional hospital is situated about 70 km from Pretoria, 30km from Johannesburg CBD (+/- 10km from Oliver Tambo International Airport)

Tambo Memorial Hospital has about 640 beds with a staff compliment of approximately 1100. The hospital provides service in Benoni, Boksburg, and part of Germiston to a population of >1 million. All basic services are provided to in and outpatients. Specialist services include Ophthalmology, Dermatology, Rheumatology, ENT, HIV and Podiatry. Allied services include Physiotherapy, Occupational therapy, Human nutrition/Dietician, Radiology, Social Work, Psychology, Optometry, Orthopedic Workshop and Medical workshop.

The Speech Therapy & Audiology Department has a staff establishment of 4 therapists.

Speech Therapy services: Pediatric and adult speech assessment clinics, developmental therapy clinic, dysphagia clinic, neonatal follow-up clinic, cerebral palsy clinic, AAC (Boardmaker) and individual in- and outpatients.

Audiology services: Adult initial and retest clinic (includes screening tympanometry, ipsi-lateral reflexes, & diagnostic audiometry), cerumen management, pediatric assessment, individual pediatric aural rehabilitation, tinnitus clinic, adult aural management clinic (earmoulds, retubing, hearing aid fitting and follow up) and neonatal screening.

The department has a computer and printer with internet access as well as a wide range of speech and audiology reference books.

Working at Tambo Memorial offers many opportunities!

It supports a very multidisciplinary environment (especially at the clinics) and provides intensive early prevention and intervention for premature and high-risk infants. There is monthly allied team building and a spook system. Opportunity is provided for a varied timetable and time to attend courses in one's field of interest.

We encourage **TEAMWORK** but also individual initiatives, establishments of new projects, marketing and participation in workgroups to build our profession
