ANY FURTHER INFORMATION

Boitumelo Hospital  
Speech therapy and  
Audiology  
department

Boitumelo Hospital is a Regional  
Hospital in Kroonstad.

BOITUMELO HOSPITAL

## Referral Patterns

We receive referrals from the following towns

- Parys
- Frankfort
- Viljoenskroon
- Vredefort
- Heilbron
- Sasolburg
- Denayswille
- Tweeling
- Cornelia
- Edenville

We have 312 beds in the hospital and extensive out patient departments.

## Services offered by the Speech therapy and audiology department

We currently do not have a speech therapist but we have facilities and equipment to cater for a speech therapists functions.

- Hearing screening
- Diagnostic Audiometry
- Immitance testing
- Otoacoustic emissions screening
- Hearing aid fitting
- Referrals to and from ENT specialists
- Referrals to and from other health professionals

A new department is currently being built and extensive plans for more equipment are in place. This will mean that more services will be available to the public.

## Situation of the hospital

The hospital is situated near (5 minute drive) town (Kroonstad) and a number of shopping complexes. Kroonstad is a small town and so everything is easily accessible. Transport is very cheap for those who do not have their own cars. Kroonstad has a number of social and sporting clubs and activities that are easily accessible to all.

## Accommodation

The hospital has (both on hospital and off hospital) accommodation for all community service health workers.
