

Manguzi Hospital

035 592 0150

Manguzi is a 300 bed district hospital in far northern Maputaland. It is near Kosi Bay, a stone's throw from Mozambique's Ponta D'Ouro.

- The hospital has a tennis court and swimming pool, and games of soccer are regularly organized by the staff.
- Accommodation is provided on the hospital grounds- it is very social!
- Deep rural allowance in addition to normal salary
- Decent tar road all the way to the hospital, and 3G data connection.

We are particularly looking for:

- Comm. Serve audiologists
- Comm. Serve psychologists
- Comm. Serve speech therapists

to join our permanent audiologist, psychologist & speech therapist. (Physios, OTs, dieticians and doctors are always welcomed! No shortage there!)

3 Reasons why it is a great choice for your community service year:

1. Manguzi is one of the few deep rural district hospitals which boasts a full Multi-Disciplinary Team, including physios, OTs, speech therapists, audiologists, psychologists, social workers, dentists, dieticians, optometrists and doctors! Many of our staff are permanent, with a wealth of knowledge and experience, and enjoy teaching. You will get good mentoring and clinical supervision, and attendance of CPD courses is encouraged.

2. There are well-established existing services and systems. Services include remote clinics and home visits- this gets you out of the hospital and into a 4x4! You will see a wide variety of conditions within a rural context and have sufficient supervision to deal with challenges.

3. It's like being on holiday every weekend! The area is spectacularly beautiful, friendly and safe. Activities include hiking, cycling, kayaking, surfing, kite surfing, dolphin swims, turtle watching, diving, snorkeling, and game reserves. Also, Mozambique's nightlife is only 27km away.
