| 8h30: Registration | 9h00 – 10h30: Session 1  
Introduction to human rights and regulation | 10h30-11h00: Refreshments  
11h00- 13h00: Session 2  
Ethical issues generic to all practitioners | 13h00- 13h45: Lunch Break  
13h45- 15h30 Session 3  
Specific Issues in day to day practice | 15h30-16h00: Session 4  
Ethical dilemmas as submitted by participants.... |
|               | • Human and Patient rights: including the rights of children & rights of persons with impairment/limited competence  
• Professional regulation made simple  
• HPCSA rules: understanding and application | • Informed consent; confidentiality: use of tests and equipment; recording and report writing  
• Advertising of self/services | • Dealing with Ethical Dilemmas: how to identify and deal with the following  
• Unprofessional Practice: identification and management – guidelines for self/line-manager/colleagues  
• Treatment/management procedures: conflict/difference of opinion between client/caregiver & practitioner  
• Facility/Practice policy & procedures/levels of care: conflict between practitioner approach & facility policy  
• Consent for and management: of client undergoing invasive/painful procedures (such as wax management, scrubbing during Auditory Brainstem Responses testing in Audiology, Joint mobilization, passive movements (PT); management of staff abuse etc.  
• Issues around allocation of resources (Distributive justice issues), staff/time/equipment/materials, waiting lists (hospital); prioritizing of clients etc. | • Discussion of cases  
• Closure |

The workshop is open to: Audiologists, Bio-kineticists, Dental therapists, Dieticians, Occupational Therapists, Optometrists, Pharmacists, Psychologists, Physiotherapists, and Speech Therapists. However all other health care practitioners registered with HPCSA could find the workshop beneficial.
